

NICHOLAS EAGY

Matthews, NC | (704) 920-8945 | nicholaseagy@gmail.com

PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience building and testing web applications, validating APIs, and collaborating on team-based software delivery. Brings a structured approach to quality, strong attention to detail, and a focus on catching issues early, before they reach customers.

TECHNICAL SKILLS

Programming: JavaScript, Python, C++, C, SQL, PHP, HTML, CSS

Web & APIs: REST APIs, JSON, front-end and back-end development

Testing: Functional testing, debugging, validation, edge case analysis, exploratory testing

Tools: Git, GitHub, VS Code, Linux, Windows, Virtual Machines

Concepts: OOP, Agile workflows, Networking, Accessibility, Security fundamentals

EDUCATION

BS in Computer Science — Liberty University, Lynchburg, VA | May 2026 | GPA: 3.23

Associate's Degree — Central Piedmont Community College, Matthews, NC | GPA: 3.75

RELEVANT PROJECTS

Computer Science Practicum I & II | Fall 2025 – Spring 2026

- Built an automated traceability matrix app; validated requirements against delivered functionality
- Led stakeholder meetings and coordinated team communication throughout development

Aspects of Computer Security | Spring 2026

- Identified and documented Indicators of Compromise (IOCs) through structured threat analysis
- Assessed system vulnerabilities and recommended mitigation strategies

Back-End Programming in PHP | Spring 2026

- Developed and tested dynamic web applications; validated user workflows and resolved defects

Front-End Programming in JavaScript | Spring 2025

- Built a responsive portfolio site using JavaScript and APIs; tested UI behavior across use cases

Database Design | Fall 2024

- Led team project designing relational SQL schemas; validated data integrity and query accuracy

Operating Systems Design | Spring 2025

- Implemented and debugged core OS components including memory management, scheduling, and file systems

EXPERIENCE

Computer Science Tutor — Liberty University, Lynchburg, VA | Fall 2024

- Debugged student code and explained complex concepts, reinforcing structured problem-solving
- Translated technical issues into clear, actionable guidance, directly applicable to defect triage

Shift Lead — Chick-fil-A, Wesley Chapel, NC | May 2021 – July 2025

- Led 10+ staff per shift in a fast-paced environment, ensuring quality and operational efficiency
- Resolved real-time issues including equipment failures and scheduling changes
